## 1. Introduction

- 1.1 The Client named in the **Bidding Data Sheet** will select a consulting firm/organization (the Consultant) from those listed in the Letter of Invitation, in accordance with the method of selection specified in the **Bidding Data Sheet**.
- 1.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Bidding Data Sheet**, for consulting services required for the assignment named in the **Bidding Data Sheet**. The Proposal will be the basis for contract negotiations and ultimately for a signed Contract with the selected Consultant.
- 1.3 Consultants should familiarize themselves with local conditions and take them into account in preparing their Proposals. To obtain first-hand information on the assignment and local conditions, Consultants are encouraged to visit the Client before submitting a proposal and to attend a pre-proposal conference if one is specified in the **Bidding Data Sheet**. Attending the pre-proposal conference is optional. Consultants should contact the Client’s representative named in the **Bidding Data Sheet** to arrange for their visit or to obtain additional information on the pre-proposal conference. Consultants should ensure that these officials are advised of the visit in adequate time to allow them to make appropriate arrangements.
- 1.4 The Client will timely provide at no cost to the Consultants the inputs and facilities specified in the **Bidding Data Sheet**, assist the firm in obtaining licenses and permits needed to carry out the services, and make available relevant project data and reports.
- 1.5 Consultants shall bear all costs associated with the preparation and submission of their proposals and contract negotiation. The Client is not bound to accept any proposal and reserves the right to annul the selection process at any time prior to

Contract award, without thereby incurring any liability to the Consultants.

**Conflict of Interest**

1.6 The Government of the Republic of Namibia requires that Consultants provide professional, objective, and impartial advice and at all times hold the client's interest's paramount, strictly avoid conflicts with other assignments or their own corporate interests and act without any consideration for future work.

1.6.1 Without limitation on the generality of the foregoing, Consultants, and any of their affiliates, shall be considered to have a conflict of interest and shall not be recruited, under any of the circumstances set forth below:

**Conflicting activities**

(i) A firm that has been engaged by the client to provide goods, works or services other than consulting services for a project, and any of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, and any of its affiliates, shall be disqualified from subsequently providing goods or works or services other than consulting services resulting from or directly related to the firm's consulting services for such preparation or implementation. For the purpose of this paragraph, services other than consulting services are defined as those leading to a measurable physical output, for example surveys, exploratory drilling, aerial photography, and satellite imagery.

**Conflicting assignments**

(ii) A Consultant (including its Personnel and Sub-Consultants) or any of its affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant to be executed for the same or for another Client. For example, a Consultant hired to prepare engineering design for an infrastructure project shall not be engaged to prepare an independent environmental assessment for the same project, and a Consultant assisting a Client in the

privatization of public assets shall not purchase, nor advise purchasers of, such assets. Similarly, a Consultant hired to prepare Terms of Reference for an assignment should not be hired for the assignment in question.

**Conflicting relationships**

- (iii) A Consultant (including its Personnel and Sub-Consultants) that has a business or family relationship with a member of the Client's staff who is directly or indirectly involved in any part of (i) the preparation of the Terms of Reference of the assignment, (ii) the selection process for such assignment, or (iii) supervision of the Contract, shall not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Client throughout the selection process and the execution of the Contract.

1.6.2 Consultants have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.

1.6.3 No agency or current employees of the Client shall work as consultants under their own Public Entity(s). Recruiting former government employees of the Client to work for their former ministries, departments or agencies is acceptable provided no conflict of interest exists. When the Consultant nominates any government employee as Personnel in their technical proposal, such Personnel must have written certification from their government or employer confirming that they are on leave without pay from their official position and allowed to work full-time outside of their previous official position. Such certification shall be provided to the Client by the Consultant as part of his technical proposal.

**Unfair  
Advantage**

1.6.4 If a shortlisted Consultant could derive a competitive advantage for having provided consulting services related to the assignment in question, the Client shall make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any competitive advantage over competing Consultants.

However should the need arise; the Client may request Consultants to extend the validity period of their proposals. To give Consultants reasonable time in which to take an amendment into account in their Proposals the Client may, if the amendment is substantial, extend the deadline for the submission of Proposals.  |

- 3.4 The original and all copies of the Technical Proposal shall be placed in a sealed envelope clearly marked “TECHNICAL PROPOSAL” Similarly, the original Financial Proposal (if required under the selection method indicated in the **Bidding Data Sheet**) shall be placed in a sealed envelope clearly marked “FINANCIAL PROPOSAL” followed by the Procurement reference number and the name of the assignment, and with a warning “**DO NOT OPEN WITH THE TECHNICAL PROPOSAL.**” The envelopes containing the Technical and Financial Proposals shall be placed into an outer envelope and sealed. This outer envelope shall bear the submission address and reference number, and be clearly marked “**DO NOT OPEN, EXCEPT IN PRESENCE OF THE OFFICIAL APPOINTED, BEFORE [See BDS]**”. The Client shall not be responsible for misplacement, loss or premature opening if the outer envelope is not sealed and/or marked as stipulated. This circumstance may be case for Proposal rejection. If the Financial Proposal is not submitted in a separate sealed envelope duly marked as

indicated above, this will constitute grounds for declaring the Proposal non-responsive.

- 3.5 The Proposals must be sent to the address/addresses indicated in the **Bidding Data Sheet** and received by the Client no later than the time and the date indicated in the **Bidding Data Sheet**, or any extension to this date in accordance with para. 2.2. Any proposal received by the Client after the deadline for submission shall be returned unopened.
- 3.6 The Client shall open the Technical Proposal immediately after the deadline for their submission. The envelopes with the Financial Proposal shall remain sealed and securely stored.

#### 4. Proposal Evaluation

- 4.1 From the time the Proposals are opened to the time the Contract is awarded, the Consultants should not contact the Client on any matter related to its Technical and/or Financial Proposal. Any effort by Consultants to influence the Client in the examination, evaluation, ranking of Proposals, and recommendation for award of Contract may result in the rejection of the Consultants' Proposal.

Evaluators of Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded.

#### Evaluation of Technical Proposals

- 4.2 The Evaluation Committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference, applying the evaluation criteria, sub-criteria, and point system specified in the **Bidding Data Sheet**. Each responsive Proposal will be given a technical score (St). A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP, and particularly the Terms of Reference or if it fails to achieve the minimum technical score indicated in the **Bidding Data Sheet**.

#### Financial Proposals for QBS

- 4.3 Following the ranking of technical Proposals, when selection is based on Fixed budget only, the first ranked Consultant is invited to negotiate its proposal and the Contract in accordance with the instructions given under para. 6 of these Instructions.

#### Public Opening and Evaluation of Financial Proposals (only

- 4.4 After the technical evaluation is completed the Client shall inform the Consultants who have submitted proposals the technical scores obtained by their Technical Proposals, and shall notify those Consultants whose Proposals did not meet

**for QCBS, FBS,  
and LCS)**

the minimum qualifying mark or were considered non responsive to the RFP and TOR, that their Financial Proposals will be returned unopened after completing the selection process. The Client shall simultaneously notify in writing Consultants that have secured the minimum qualifying mark, the date, time and location for opening the Financial Proposals. The opening date should allow Consultants sufficient time to make arrangements for attending the opening. Consultants' attendance at the opening of Financial Proposals is optional.

4.5 Financial Proposals shall be opened in the presence of the Consultants' representatives who choose to attend. The name of the consultants and the technical scores of the consultants shall be read aloud. The Financial Proposal of the Consultants who met the minimum qualifying mark will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copy of the record shall be sent to all Consultants, upon request.

4.6 The Client will correct any computational error. When correcting computational errors, in case of discrepancy between a partial amount and the total amount, or between word and figures the formers will prevail. In addition to the above corrections, as indicated under para. 3.6, activities and items described in the Technical Proposal but not priced, shall be assumed to be included in the prices of other activities or items. In case an activity or line item is quantified in the Financial Proposal differently from the Technical Proposal the Evaluation Committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity and correct the total Proposal cost. Prices shall be evaluated as quoted in Namibian Dollars.

4.7 In case of QCBS, the lowest evaluated Financial Proposal (Fm) will be given the maximum financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the **Bidding Data Sheet**. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight

given to the Financial Proposal;  $T + P = 1$ ) indicated in the **Data Sheet**:  $S = S_t \times T\% + S_f \times P\%$ . The firm achieving the highest combined technical and financial score will be invited for negotiations.

4.8 In the case of Fixed-Budget Selection, the Client will select the firm that submitted the highest ranked Technical Proposal within the budget. Proposals that exceed the indicated budget will be rejected. In the case of the Least-Cost Selection, the Client will select the lowest proposal among those that passed the minimum technical score. In both cases the evaluated proposal price according to para. 5.6 shall be considered, and the selected firm is invited for negotiations.

## 5. Negotiations

5.1 Negotiations will be held on the date and at the address indicated in the **Bidding Data Sheet**. The invited Consultant will, as a pre-requisite for attendance at the negotiations, confirm availability of all Professional staff. Failure in satisfying such requirements may result in the Client proceeding to negotiate with the next-ranked Consultant. Representatives conducting negotiations on behalf of the Consultant must have written authority to negotiate and conclude a Contract.

### Technical negotiations

5.2 Negotiations will include a discussion of the Technical Proposal, the proposed technical approach and methodology, work plan, and organization and staffing, and any suggestions made by the Consultant to improve the Terms of Reference. The Client and the Consultants will finalize the Terms of Reference, staffing schedule, work schedule, logistics, and reporting. These documents will then be incorporated in the Contract as "Description of Services". Special attention will be paid to clearly defining the inputs and facilities required from the Client to ensure satisfactory implementation of the assignment. The Client shall prepare minutes of negotiations which will be signed by the Client and the Consultant.

### Financial negotiations

5.3 If applicable, it is the responsibility of the Consultant, before starting financial negotiations, to contact the local tax authorities to determine the local tax amount to be paid by the Consultant under the Contract. The financial negotiations will include a clarification (if any) of the firm's tax liability in the Republic of Namibia, and the manner in which it will be reflected in the Contract; and will reflect the agreed technical modifications in the cost of the services. In case of Quality and Cost Based Selection, Fixed-Budget Selection, or the Least-Cost Selection methods, unless there are exceptional

reasons, the financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates. For other methods, Consultants will provide the Client with the information on remuneration rates described in the Appendix attached to Section 4 - Financial Proposal - Standard Forms of this RFP.

- |   |     |   |
|---|-----|---|
| <b>Availability of Professional staff/experts</b> | 5.4 | Having selected the Consultant on the basis of, among other things, an evaluation of proposed Professional staff, the Client expects to negotiate a Contract on the basis of the Professional staff named in the Proposal. Before contract negotiations, the Client will require assurances that the Professional staff will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be disqualified. Any proposed substitute shall have equivalent or better qualifications and experience than the original candidate and shall be submitted by the Consultant within the period of time specified in the letter of invitation to negotiate. |
| <b>Conclusion of the negotiations</b>             | 5.5 | Negotiations will conclude with a review of the draft Contract. To complete negotiations the Client and the Consultant will initial the Contract. If negotiations fail, the Client will invite the Consultant whose Proposal received the second highest score to negotiate a Contract.   |
| <b>6. Award of Contract</b>                       | 6.1 | The Consultant whose bid attains the highest score, in accordance with the criteria and selection method set forth in the request for proposals, or the one with the highest ranked technical proposal as all proposals are submitted at the same price.  |
|   | 6.2 | For contract above the prescribed threshold outlined in Section 55(4) of the Public Procurement Act, 2015, the Client shall notify the selected Consultant of its intention to award the contract and shall simultaneously notify all other short listed consultants of its decision.   |
|   | 6.3 | For contracts not exceeding the prescribed threshold outlined in Section 55(4) of the Public Procurement Act, 2015, the client shall issue the Letter of Award.   |
|   | 6.4 | In the absence of an application for review by any other  |

consultant within 7 days of the notice under section 7.2, the contract shall be awarded to the selected Consultant.

6.5 Within seven days from the issue of Letter of Award, the Client shall publish on the Public Procurement Portal [www.mof.gov.na/procurement-policy-unit](http://www.mof.gov.na/procurement-policy-unit) and the Client's website, the results of the RFP process identifying the:

(i) name of the successful Consultant, and the price it offered, as well as the duration and summary scope of the assignment; and

(ii) an executive summary of the RFP Evaluation Report, for contracts above the prescribed threshold referred to in section 7.2.

6.6 After Contract signature, the Client shall return the unopened Financial Proposals to the unsuccessful Consultants.

6.7 The Consultant is expected to commence the assignment on the date and at the location specified in the **Bidding Data Sheet**.

## 7. Confidentiality

7.1 Information relating to evaluation of Proposals and recommendations concerning awards shall not be disclosed to the Consultants who submitted the Proposals or to other persons not officially concerned with the process until the publication of the award. The undue use by any Consultant of confidential information related to the process may result in the rejection of its Proposal and may be subject to the provisions of the Government's antifraud and corruption policy.

## 8. Debriefing

8.1 The client shall promptly attend to all requests for debriefing for the contract made in writing within 30 days from award, and within 3 days from the date of receipt of request from the unsuccessful consultant.

## **Section 5: Terms of Reference**

These Terms of Reference (TOR) define the objectives and scope of the work to enable the Consultant to prepare and submit a suitable proposal.

### **1. INTRODUCTION AND BACKGROUND**

The Development Bank of Namibia Limited (DBN) is a company established in terms of the Development Bank of Namibia Act, No.8 of 2002 (the Act), to contribute to sustainable economic growth and socio-economic development in Namibia, by availing finance to enterprises that are:

- Financially and economically viable
- Socially equitable and environmentally responsible
- Likely to have a sustainable developmental impact.

The enterprises financed or supported, through the National Mentoring and Coaching Program (NMCP), by DBN include, inter alia, Small and Medium Enterprises (SMEs) and, together with corporate enterprises, are central to the socio-economic development of Namibia. This is due to the ability of these enterprises to enhance employment creation, reduce poverty and create wealth. However, their potential to be financed, and subsequently sustain their growth and contribute to national development goals is often hindered by a number of factors. These hampering factors may include, but are not necessarily limited to:

- Absence of a realistically bankable business plan, serving as a guiding tool required for sustainable business operations
- Lacking business & leadership-managerial skills alike
- Lacking sound financial acumen
- Lacking sourcing of appropriate operational commodities optimally
- Lacking market access, especially sustainable establishment within a well-established supply chain
- Lacking sustainable productivity
- Presence of business passivity
- Lacking insight into and compliance with applicable business regulatory requirements.

Part of the SME Financing Strategy recognizes the importance of transactional interventions to revitalize technical assistance, consulting, mentorship, coaching and training services for SMEs. By doing so, clients should become more competitive and better positioned to take advantage of available resources to grow and spur economic growth and be able to fulfill their mandates within the economy.

It is against this background that DBN established the Client Development Function (CDF) and the NMCP, as assigned by its shareholder, to provide transactional interventions aimed at alleviating factors that inhibit DBN or NMCP clients' sustainable business operations. The

CDF is also expected to promote and enhance existing, as well as prospective, DBN clients' ability to sustain and improve business operations while safeguarding the need for return on investment.

In context of all the information provided heretofore, the DBN wishes to recruit the services of qualified and competent consultant-mentors that will positively impact DBN or NMCP clients' performance through implementation of such a CDF. The ultimate aim of this endeavor is to establish sustainable DBN-Clientele-Partnership towards a significant stakeholder's business success..

## **2. OBJECTIVES OF THE ASSIGNMENT**

The key objectives of the DBNs CDF and the NMCP, are the realization of which will be the responsibility of the consultant-mentors - are to, inter alia,

- Provide business development services through applicable transactional interventions that shall secure optimization of the business that is being mentored, their actual and latent business acumen & operations.
- Secure enhanced performance through the CDF intervention, that addresses key challenges observed at start of intervention. This could be related to loan repayment ability of such businesses, if they have a loan, through optimizing the development of skills and competencies of leader-managers of such
- businesses and business owners alike.
- Mitigate the client's risk of defaulting on loan repayments and other obligations they have, through targeted client development transactions.
- Focus transaction interventions on resource-based growth and development, aiming at cementing a Namibian Growth-@-Home dream & strategy.
- Develop transactions that will at least optimally diminish the above-noted factors cited to hamper SME development & growth.
- Develop and apply measurable criteria, clear guidelines and procedures applicable in recruiting clients that are eligible to be supported through DBNs development functions.
- Develop additional measures required to support DBN with their endeavors towards CDF where necessary and applicable.

DBN calls for an expression of interest from external consultant-mentors and coaches to intervene on behalf of DBN with clients being mentored, so as to achieve the said objectives. The CDF and the NMCP are seen as long-term, continuous projects, and the aim of DBN to establish a database of consultant-mentors/coaches from which to align clients to secure their sustainable growth and, ultimately, enhance SME development in Namibia.

### 3. SCOPE OF WORK

In order to successfully mentor, coach or consult on its behalf, the DBN wishes to recruit the services of external consultants, mentors and coaches. They will be required to engage with clients who are recommended for technical support, consulting, mentorship, coaching and/or various trainings which are needed based. The interventions could be pertaining to specific business functions, so as to facilitate managerial, business and technical skills transfer and capacity development in said clients. These needs typically encompass, but are not limited to, the four management functions of an enterprise:

- Planning
  - Clarity of purpose and mandate
  - Goal setting
  - Benchmark setting
  - Business plan and abiding by content of same
  
- Organizing
  - Achieving goals through employees and appropriate technologies
  - Coordination and communication
  - Sharing of information
  
- Leading
  - Leadership skills, styles and behaviors
  - Decision making
  - Truly serve the interest of government, donor, financier and clients
  
- Controlling (Monitoring, evaluation & feedback)
  - Quality and cost of quality
  - Conformance to specification, delivery through time, value for money and entrepreneurship practice.

Efficient managers appreciate how proper planning, organizing, leading and controlling effectively, achieve organizational and business success. A manager should first plan and then organize according to that plan. He should lead his employers to work towards that plan, all the while monitoring the performance of the employers and, eventually, evaluating the effectiveness of that plan. The successful consultant-mentors will therefore be required to develop these skills in DBN clients where it is found to be lacking and where specific intervention will be beneficial.

The consultant-mentors will further be required by DBN to provide training, technical support and/or consultant-mentorship in one or more of the following operational functions:

- Human Capital & Appropriate Technologies
  - Recruiting appropriate personnel to vacancies

- 
- Organizational behavior, ethics (values) and character
  - Communication within business
  - Productivity enhancement and passivity diminishment
  - Competencies development
  - Teamwork encouragement
  - Recognition and reward
  - Demand driven performance
  
  - Finance
    - Budget
    - Funding sources
    - Financial statements
    - Taxation
    - Costing & pricing
    - Cash flow
  
  - Procurement
    - Proactive procurement partnerships
    - Order fulfilment
    - Growth-@-Home
    - Logistics & supply value chains
  
  - Sales
    - Market demand forecasting
    - Order fulfilment
    - Marketing
    - Customer relations
    - Customer care
    - Logistics and sales value chains
    - Company brand/logo and live it
  
  - Administration
    - Governance
    - Systems components and survival
    - Procedures, rules and regulations
    - Managing meetings & resolutions taken
    - Customs and exercise, taxation
    - Filing, documentation generation & retrieval
  
  - Public Relations
    - Linkages
    - Networking
    - Business intelligence
    - Attachments to mainstream companies
    - Capitalization on an enabling environment

- *Production & Manufacture Flow (Applicable to Manufacturers Only)*
  - *Specifications and benchmark*
  - *Resource-based industries*
  - *Productivity enhancement and passivity diminishment*
  - *Logistics & production value chains*
  - *Total quality control.*

In the quest of promoting the operational functions of a business towards sustainable development and growth in DBNs clients, the consultant-mentors should focus on the role and impact of certain business enablers. Such enablers include the roles and impact of:

- Central government
- Local authorities
- State owned enterprises
- NGO's and community-based organizations
- Growth-@-Home strategy
- Resource based development strategy
- Appropriate technologies strategy
- NDP 4 and Vision 2030.

Furthermore, the technical assistance, training and/or consultant-mentorship provided by the consultant-mentors should also include assistance with:

- Government legislation, regulation and business administration activities
- Access to appropriate and affordable infrastructure, business sites and premises
- Participatory approaches and mechanisms
- Networking, linkages and dialogue
- Brand development and to cement the application thereof within the client's business
- Product development
- Empowering tools at hand, access pathways to such tools and actual gains from same.

These interventions should cultivate a culture of lifelong education and entrepreneurship in DBN clients, by converting ignorance into knowledge and “the absence of” into the “presence of”.

The DBN will act as the initiator for the intervention between its clients and the successful consultant-mentors. Furthermore, DBN will require frequent and relevant feedback from the consultant-mentors. Where a client expresses a need for development in one or more of the abovementioned functions, or where a client is identified by DBN as lacking skills in a particular function, the relevant consultant-mentor will be called upon by DBN to assist the client so as to enhance sustainable operations.

The DBN calls for an expression of interest from external consultant-mentors and coaches to provide training, technical assistance and/or mentorship and coaching to clients as well as to attach clients to appropriate operational business entities of excellence and/or to link clients to value chains with respect to managing a business, executing the seven operational functions of a business and/or ensuring the maximum worth of enablers to execute the seven operational functions. The key expected actions of these consultant-mentors will be to:

- Review adequate and applicable literature and case studies, analyze success rates in the relevant field and review clients' opinions related to the background of the areas of concern experienced by clients
- Develop demand-driven facilitation and training material to address areas of concern experienced by clients
- Prepare a detailed inception report pertaining to the approach to intervening with said clients in a successful and sustainable manner
- Submit training material and inception report to DBN for approval prior to initiation of any intervention
- Perform relevant training, provide technical assistance and/or mentorship to address areas of concern of clients.
- Attach clients, where applicable, to appropriate operational business entities of excellence and/or link clients to value chains
- Perform follow-up intervention where required
- Continuously report clearly defined and measurable KPIs attained to DBN as per agreed upon.

The time frame, the scope of work, reporting, expected results and payment will be discussed and agreed upon between DBN and the relevant consultant-mentor before such work commences.

#### **4. IMPLEMENTATION METHODOLOGY**

The successful consultant-mentors are expected to develop effective and relevant training material to produce *Key Performance Indicators* (KPIs) around the four management functions of an enterprise, further enhanced by the seven operational functions and enablers. It is further expected from these consultant-mentors to use universally relevant research methodologies in order to best support the clients. Methods consisting of both qualitative and quantitative approaches to intervene with the clients should be employed by the intervening consultant-mentors.

For each of the seven operational fields, as mentioned in the scope, to be successfully executed, the implementation of key actions is required. These actions may, in turn, be measured by KPIs. A number of KPIs required by DBN to be used during the client intervention process is set out in Table 1. For each of the seven operational fields identified, a

number of KPIs are given in the table. Due to the variance in the nature of DBNs clients' field of operations, it is the responsibility of the intervening consultant-mentor to, in each case, select the particular KPIs relevant to that client. Furthermore, it is also the intervening consultant-mentor's responsibility to ensure the correct application, implementation and interpretation of these KPIs by the client.

**Table 1: The seven operational fields together with environmental performance, their relevant KPIs and scores to be completed by the client and relevant consultant-mentor.**

The KPIs should establish the client's current state of performance (efficiency, effectiveness and sustainability), set performance standards to motivate continuous improvement and measure and report such improvements over time. The client's performance should also be benchmarked against national norms. The client, together with the intervening consultant-mentor, is expected to use a table such as Table 1 to rank the client according to the scores of a benchmark national norm enterprise, the client's goal score, and its actual score. An eight-point, *Environmental & Social Sustainability Performance*, is added to the table to encourage social responsibility among DBN clients.
